ABOUT DLF FOUNDATION

Established in 2008 as the philanthropic arm of the DLF Group, our vision is to transform communities we work with through high-impact interventions in spheres of education, environment, healthcare, social sustainability, and sports promotion with the resolve of enabling a better quality of life backed by sustainable ecosystems for all stakeholders within the immediate and extended communities.

We accomplish these through the creation of customised programmes and innovative institutions that address India's current development challenges and by providing a platform for the Foundation to collaborate with other institutions, professionals, and subject matter experts to deliver sustained, magnified impact across communities of interest.

INTRODUCTION

DLF Foundation is the social arm of the DLF Group, committed to building inclusive, resilient, and sustainable communities through focused social and environmental initiatives. Guided by the belief that long-term business success is closely connected to social good, the Foundation addresses critical development challenges by improving social and financial access, enhancing quality of life, and driving meaningful community transformation.

Over the years, DLF Foundation and other Trusts have built a strong legacy of impact by partnering with government bodies, civil society organisations, healthcare institutions, educational partners, development experts, volunteers, and local communities. These collaborations span key thematic areas and reflect our deeper commitment to strengthening people, public systems, and an equitable, sustainable future.

At the core of our work is a clear purpose to deliver social impact which is relevant, responsible, and lasting. Our initiatives are designed as sustained interventions that respond to genuine community needs while aligning with national development goals. From developing greener public spaces and improving access to quality education and affordable healthcare, to promoting safe pedestrian movement, animal welfare, community volunteering, disaster relief, and sporting excellence, we create pathways for excellence.

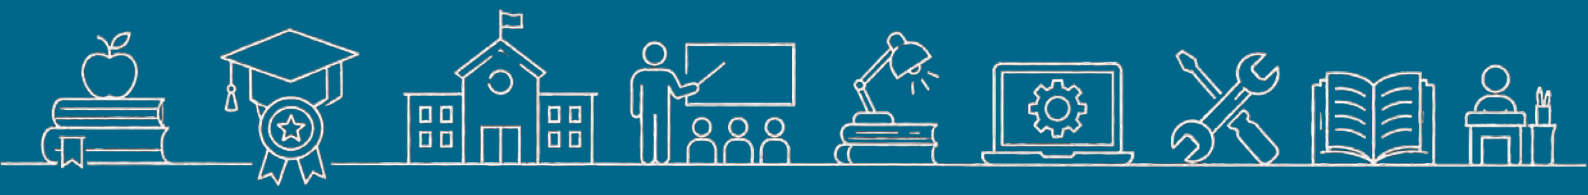

We believe lasting change emerges when multiple interventions work in synergy to strengthen both communities and environment.

As we continue this journey, DLF Foundation remains conscious of its responsibility to the communities and stays focused on designing scalable, inclusive, and grounded interventions that deliver measurable impact. Through consistency, empathy, and long-term commitment, we work to create meaningful change, transform communities, and restore hope for those in need.

The FY 2025–26 Social Report presents this continuing journey of purpose-led action. It captures our efforts across diverse areas and reflects our commitment to creating educated, healthier, safer, greener, and more inclusive communities.

Through sustained partnerships and community-centred interventions, DLF Foundation remains committed to a future where social progress and sustainable development go hand in hand.

Foundation

EDUCATION

Enabling Access to Education

Education remains a focus area for DLF's social development efforts. The educational projects implemented by the DLF Foundation and DLF Q.E.C. Educational Charitable Trust advanced education and nurtured young minds through a diverse portfolio of initiatives. With a strong emphasis on access, equity, and quality, the Trust worked to empower students and youth from underserved communities by strengthening educational infrastructure, enabling learning opportunities, and supporting pathways to sustainable livelihoods. Through these programmes, the Trust remains dedicated to fostering inclusive, resilient, and futuristic education ecosystems.

STRENGTHENING THE LEARNING ECOSYSTEM

Access to Education

Expanding educational opportunities through financial assistance and support that enables deserving students to pursue their academic goals.

Learning Support

Enhancing learning outcomes through academic support, foundational education, remedial learning, and digital learning opportunities.

Teacher Empowerment

Building educators' capacities through training, innovative teaching practices, and resources that foster engaging and effective learning experiences.

Rural School Development

Creating safer, better-equipped, and more enabling learning spaces that strengthens the overall learning environment.

Holistic Development

Supporting the overall development of school students by promoting life skills, confidence, creativity, leadership, and well-being alongside academic learning.

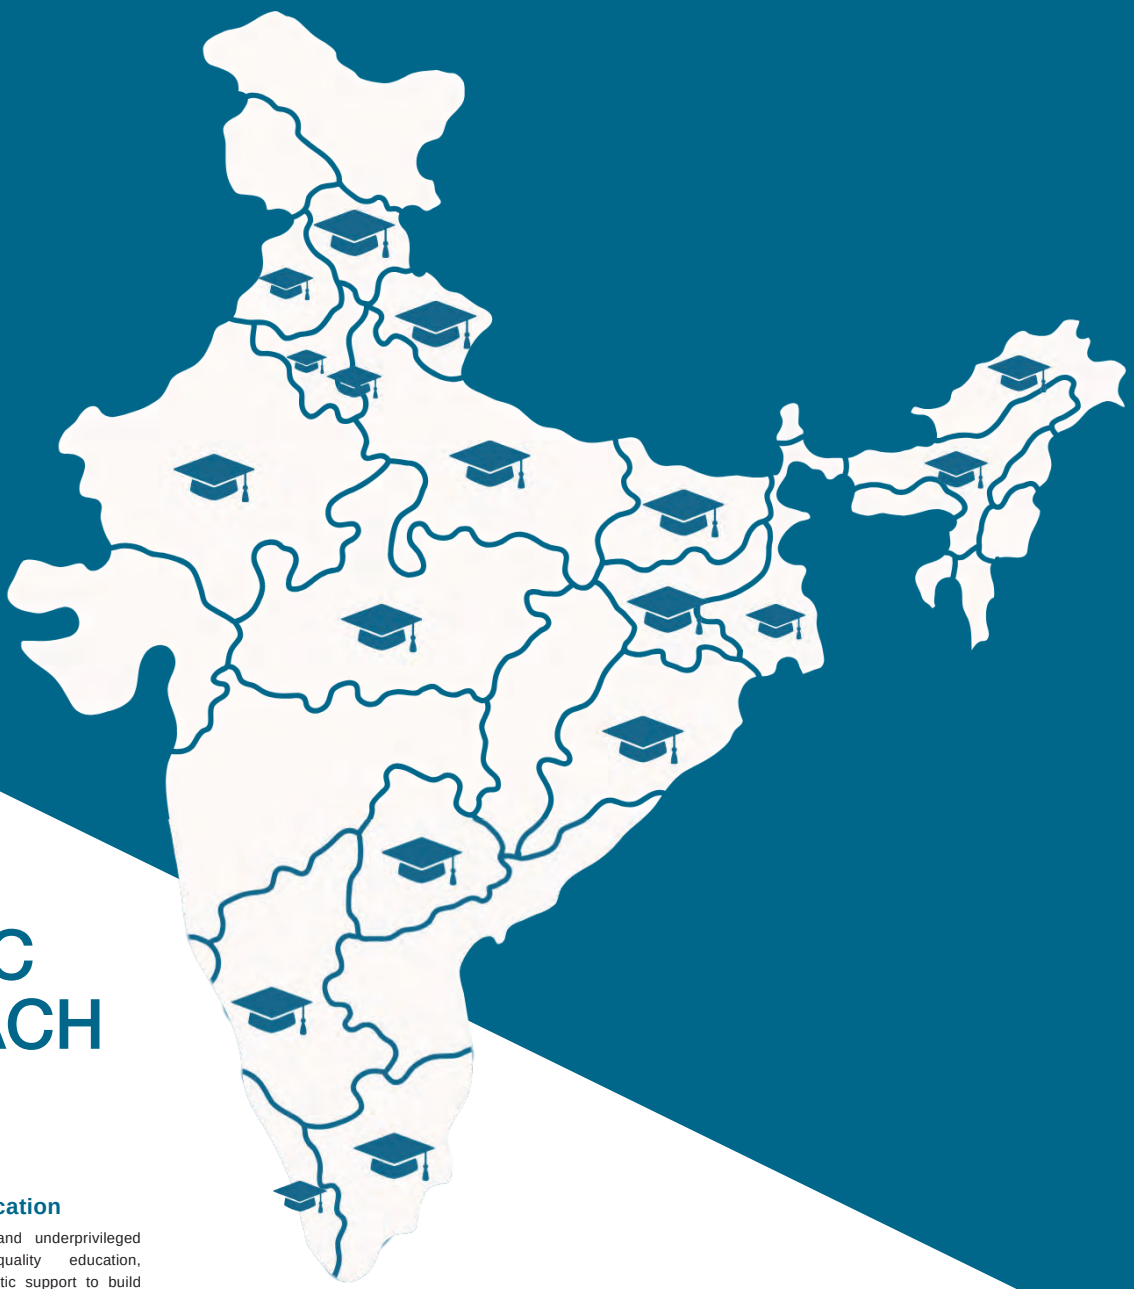

Skills for the Future

Preparing youth for higher education, employment, and entrepreneurship through skill development, career guidance, and livelihood-oriented learning opportunities.

DLF CARES

An Education Support Programme

A HOLISTIC APPROACH

Access to Education

Enabling meritorious and underprivileged children through quality education, scholarships, and holistic support to build knowledge, values, and 21st-century skills.

Beyond School Programme

This scholarship has aided thousands of students in higher education through financial support to pursue full-time undergraduate studies and professional courses.

National Education Policy

All learning is dovetailed within the NEP framework which consists of vocational learning, career guidance, indigenous practices, value education, global citizenship, and digitalisation.

Parental Engagement

The Programme enables first-generation learners with quality education which acts as a catalyst for positive change within their families and society at large.

Capacity Building of Teachers

The Programme has been working tirelessly along with the educators to bring about innovation in teaching learning tools, pedagogy and support them with concerns pertaining to student assessments, mentoring and counselling skills, as well as fostering digital awareness.

Mental Health & Well-being

To equip the scholars address mental health and well-being issues, individual and group sessions are organised addressing poverty, domestic violence, peer pressure, adolescent changes, technology addiction, substance abuse, sibling rivalry, sexual harassment, and others.

DLF CARES, the flagship education initiative, continues to support children from economically disadvantaged backgrounds in their academic journey, from school to higher education. Implemented through DLF QEC Educational Charitable Trust, the Programme provides access to scholarships, mentoring and academic support, career guidance, counselling, and socio-emotional support to help beneficiaries make informed career choices. The Programme also strengthens teaching practices through faculty development workshops focused on pedagogy, competency-based learning, and the integration of classroom technology. In addition, DLF CARES fosters global exposure through collaborations with institutions such as the University of Melbourne, Australia, and educational partners in Bhutan, facilitating knowledge exchange, teacher interactions, and classroom observations.

To ease the transition from education to employment, the Programme offers skill-enhancement modules in interview preparation, digital literacy, and industry-relevant technical training. Vocational training centres, established in partnership with government institutions, provide certification-based courses in tailoring, retail, and computer skills to expand livelihood opportunities for underserved communities. Through this integrated approach, DLF CARES continues to expand access to quality education and create pathways for students to build brighter futures.

Stories of Change

Saadhana, a Class 12 scholar, secured an impressive 98.2% in her X Boards. She has been supported by innumerable interventions that DLF CARES provides to its students.

Grameen Yuva Kendra

The UPSC Civil Services Examination is among India's most competitive and aspirational exams, opening the doors to the Indian Administrative Service, the Indian Police Service, the Indian Foreign Service, and more. Aspirants from across the country, including rural youth, appear for these exams. However, with most coaching centres concentrated in cities, rural aspirants are often forced to relocate for coaching and mentorship. High urban living expenses and limited support systems limits many capable and deserving candidates who are financially challenged.

In collaboration with the Atulya Foundation, DLF QEC Educational Charitable Trust supported Grameen Yuva Kendra to empower civil service aspirants from rural and economically disadvantaged backgrounds. The project provided students with safe, affordable, and well-equipped residential and coaching facilities in Delhi. The Kendra offers safe accommodation, common study halls, library space, Wi-Fi, and digital learning resources. Students also received structured counselling and mentorship from senior and retired bureaucrats, who shared practical insights from their years in public service, helping groom them for interviews and a life in civil services.

Supporting Chief Minister's Good Governance Associates (CMGGA) 2025

As part of the commitment to strengthening governance and nation-building, DLF Foundation, in partnership with the Global Village Foundation, is supporting the Chief Minister's Good Governance Associates (CMGGA) 2025 training Programme, a flagship initiative of the Government of Haryana. The Programme provides practical learning to selected young associates who work with government administrative heads of different districts in Haryana to coordinate and lead social projects, strengthen implementation frameworks, and bridge the gap between policy and execution.

The Programme continues to make steady progress with interventions in areas of Solid Waste Management, Human Resource Management, Health, Education and Water, where these associates continue to make meaningful contribution in ground level execution.

FY 2025-26 IMPACT

Education Support for Sai Shiksha Sansthan

DLF QEC Educational Charitable Trust in collaboration with Sai Shiksha Sansthan supported a primary school in Kangoda village, Dadri (U.P.). The Trust facilitated the construction of three classrooms and two toilet blocks, which are currently being used by school students. Through this support, rural children have been provided with an enabling environment and quality infrastructure for learning. This has led to improved attendance, higher student engagement, stronger parental confidence, and greater community involvement, contributing meaningfully to the village.

Sanitation Facilities Improved for

200

Adolescent Girls

WISE Initiative

Limited access to education, skills, and employment continues to hinder women participation in India's workforce, especially those from socially and economically vulnerable backgrounds. The WISE Programme (Women in Sustainable Employment), implemented by DLF Foundation in partnership with VISAN Foundation, equipped women from vulnerable backgrounds with training in industry-relevant healthcare and IT skills.

The General Duty Assistant (GDA) training equipped trainees with essential patient care skills, including basic nursing care, monitoring vital signs, emergency support including first aid, CPR and handling emergency transfers. The beneficiaries were placed in leading hospitals, including Fortis Hospital, Max Hospital, among others.

The Digital Mitra training equipped trainees with basic digital and job-ready skills for digital operations, data entry, MIS reporting, and customer service. Digital Mitra trainees have been placed in leading service companies such as Amazon, Urban Company, Paisa Bazar, among others. By providing access to dignified work opportunities, the WISE Initiative helped families secure a better future.

> *"Through this training, I gained essential patient care skills and got hands-on experience in recording patient routines, monitoring dietary charts and much more."*

from low-income families were supported

20 WOMEN
have successfully gained employment

12 WOMEN

Supported with Structured Vocational Skills and Livelihood Opportunities

Education and Skills Development

DLF Foundation supported an Education and Skills Development initiative in rural areas around Tehri Garhwal in Uttarakhand, aimed at empowering economically disadvantaged women through livelihood training and community development. The Project focused on promoting economic self-sufficiency, skill enhancement, and improved social status to women in rural communities. As part of the initiative, a cowshed, milk processing and training rooms, and livelihood-based production activities were undertaken during the year. Additionally, equipment such as milking machines, bulk milk coolers, fogger systems, packing machines, chaff cutters, deep freezers, milk cans, storage units, and knitting and sewing machines were procured to support activities related to dairy farming, tailoring, knitting, and other income-generating work. Training modules focused on knitting, sewing, and dairy farming, providing participants with practical skills that fostered entrepreneurship and financial independence. The initiative supported vulnerable women, providing structured vocational skills and livelihood opportunities, thereby contributing to the overall economic resilience of rural communities.

Development of a Residential Training Centre for Women

DLF Foundation has partnered with Devi AhalyaBai Samarak Samiti (DASS) to construct a Residential Training Centre for Women (Mahila Koushalya Vikas Kendra) in Nagpur, Maharashtra. This initiative aims to empower women through skill development, education, and livelihood opportunities.

The Project aims to provide training to women & adolescent girls from economically disadvantaged backgrounds, tribal communities, and migrant populations in Nagpur and nearby areas. Located on 2.93 acres, the Centre will provide a safe, inclusive and enabling environment for the holistic development of 300-400 women beneficiaries.

The Centre will empower nearly 500 to 1,000 women each year through structured training in digital literacy, entrepreneurship, personal safety, and life skills. The Programme also encompasses livelihood generation, cultural education, and health awareness, helping participants build confidence, enhance employability, and attain sustainable livelihoods. The construction of the facility is ongoing.

ENVIRONMENT

Environment Sustainability Initiatives

Environmental sustainability continues to be a priority at DLF. Under its overarching Greening Cities Programme, DLF Foundation undertakes long-term, community-centric plantation initiatives and develops innovative, environment-friendly public green spaces. Working closely with government authorities, the Foundation restores urban ecosystems, adopts and develops public green spaces, and integrates environment friendly technologies in social projects for strengthening the urban environment. These initiatives contribute to improved air quality and enhanced biodiversity while creating healthier, greener, and more inclusive urban environment. During the year, DLF Foundation advanced its commitment through focused initiatives, including the adoption and maintenance of public green belts and the development of an eco-friendly Shanti Sthaan Crematorium.

ENVIRONMENTAL STEWARDSHIP IN ACTION

Eco-Friendly Crematorium

Development of the Shanti Sthaan Eco-friendly Crematorium, promoting dignified last rites through environmentally responsible technologies that reduce emissions.

Greening Initiatives

Large-scale plantation and community-led greening efforts to increase green cover, that improve the environment, and create healthier urban ecosystems.

Sustainable Water Management

Supporting the restoration of ponds and water bodies, aiming to support groundwater recharge, increase water storage, and boost biodiversity.

Environment Friendly Practices

Using STP water for greening and developing rainwater harvesting structures for ensuring ecological sustainability.

Ecological Conservation

Supporting long-term environmental stewardship through restoration, conservation, and climate-resilient interventions.

Adoption, Development & Maintenance of Public Green Belts

The Foundation's Greening Cities Programme focuses on restoring, adopting and maintaining public green belts in partnership with government authorities across cities, including Gurugram, Delhi, Hyderabad, and Chennai. The initiative prioritises long-term ecological sustainability through upgradation and maintenance of public green belts.

The Programme addresses critical environmental issues, including air pollution, the heat island effect, and groundwater depletion. The initiative emphasises planting native and climate-appropriate species that support local biodiversity, require less water, and demonstrate greater resilience in extreme climatic conditions.

The use of recycled water, integration of rainwater harvesting pits, and efficient waste management practices are part of the regular maintenance in these public green belts.

Additionally, the Foundation has adopted and is restoring ponds and water bodies to support groundwater recharge, increase water storage, and enhance biodiversity. Two major ponds in the villages of Datawli and Duryai in Gautam Buddha Nagar are being restored to promote sustainable water management.

Through strategic integration of green cover in urban spaces, DLF Foundation is committed to creating greener cities.

Development of an Eco-friendly Shanti Sthaan Crematorium

Shanti Sthaan, an eco-friendly crematorium, is being developed by DLF Foundation in collaboration with the Haryana Shehri Vikas Pradhikaran (HSVP). Situated in Sector 72A, Gurugram, the facility is nearing completion and is envisioned as a model crematorium combining religious traditions with environmental sustainability, offering privacy, dignity & solace to friends and families during the last journey of their loved ones.

This initiative integrates environment friendly technology, significantly reducing harmful emissions while respecting traditional rites. Green spaces, advanced emission controls, an effluent treatment plant and rainwater harvesting highlight our commitment to preserving the environment.

The crematorium is emerging as a serene, thoughtfully planned facility, with independent pyres and dedicated gathering spaces, providing families with the much-needed privacy, dignity, and emotional comfort at the time of grief. Spiritual shlokas, a statue of Lord Shiva, and a Navgraha Vatika reinforce a sense of peace and calm. Designed for inclusion, the campus is wheelchair-accessible, with barrier-free pathways, clear signage, and infrastructure that supports all ages and abilities.

Once operational, Shanti Sthaan will set a benchmark for sustainable, dignified cremation in the country.

HEALTHCARE

Access to Primary, Preventive & Emergency Healthcare

During the year, DLF Foundation, DLF QEC Medical Charitable Trust and other Public Charitable Trusts, continued to strengthen the healthcare efforts to improve accessibility, affordability, and awareness, while promoting preventive care and long-term well-being. With a comprehensive approach, multiple interventions were carried out including Family Health Centre, Emergency Ambulances, Eye-care, Elderly Care, Naturopathy services and Medical Assistance to People in Need.

STRENGTHENING COMMUNITY HEALTH AND WELL-BEING

Access to Primary Healthcare

Providing community-based healthcare through Family Health Centres, OPD consultations, diagnostics, medicines, and basic treatment support to address everyday health needs.

Preventive Healthcare & Wellness

Promoting early detection and timely care through health screenings, wellness consultations, naturopathy, and alternative medicine services.

Eye Care & Vision Support

Enabling access to eye screening, treatment, spectacles, and post-operative care to help restore vision of individuals and improve quality of life.

Elderly Care & Dementia Support

Supporting senior citizens through day-care and residential facilities, ensuring a secure, dementia-friendly environment.

24x7 Emergency Healthcare

Ensuring timely emergency response through ambulance services for road accident victims and community members requiring urgent medical care.

Medical Assistance to People in Need

Extending financial and treatment support at leading hospitals to vulnerable individuals requiring critical or specialised medical care.

Support to Family Health Centre

DLF Foundation, in partnership with Adharshila Trust, supports a Family Health Centre in Gwal Pahari, Gurugram that provides accessible, high-quality healthcare to underserved rural and slum communities. The Centre provided free OPD consultations, diagnostic screenings, and essential medication through a team of doctors, nurses and paramedics, ensuring quality care for low-income families.

To support communities, several initiatives, including cancer screening, eye care camps, and awareness sessions on maternal and child health, nutrition, and hygiene, were organised throughout the year.

> *"I am thankful for the medical camp being organised in Bandhwari village. I have been receiving treatment at the Family Health Centre for a year and my BP and sugar levels are now stable. These camps really help the rural community members, which has limited means to spend on healthcare."*
>
> **Mahipal Singh, Beneficiary**

Individuals Supported
through Family Health Centre

Eye Screening & Wellness Programme

India has one of the largest population of visually impaired worldwide, making timely eye care a critical public health need. DLF QEC Medical Charitable Trust, in partnership with AKAK Clearview Foundation, implemented the Eye Screening Health & Wellness Programme in Gurugram to promote early detection and preventive care for disadvantaged communities.

Under the Programme, multiple eye screening camps were organised in NCR for local underprivileged communities to identify vision disorders. Individuals diagnosed with poor vision received spectacles, and those diagnosed with eye ailments received treatment, including cataract surgeries.

> *"I struggled with vision issue for a long time, but after getting my eyes checked at the health camp, I was given prescription glasses. Now, I can see clearly. I am truly thankful to Adharshila and DLF Foundation for bringing this health camp to our community and making quality care accessible for people like me."*

24X7 Emergency Ambulances

To improve timely pre-hospital care and emergency medical transport, DLF Foundation partnered with Manipal Hospitals and Medicallz Healthcare Services to provide 24x7 ambulance support.

Each ambulance is staffed with trained medical staff and is fully equipped with essential emergency and life-saving equipment including oxygen cylinders, artificial ventilators, medications, multiparameter monitors and automated external defibrillators (AEDs).

In FY 2025–26, three Basic Life Support (BLS) ambulances were deployed across Gurugram and Delhi which enabled emergency medical care to individuals in cases of head injury, burn injuries, cardiac arrest, fracture, hypertension among others.

FY 2025-26 IMPACT

~541

Individuals Received Emergency Care

Supporting Dignified Care for Dementia Patients

DLF Foundation extended its support to the ASHA Dementia Centre in New Delhi, an initiative of Hope Ek A.S.H.A., dedicated to providing specialised care for individuals living with dementia.

The ASHA Dementia Centre addressed the critical care needs of individuals living with this neurological condition through day-care and residential facilities, ensuring a secure, dementia-friendly environment, round-the-clock medical care, and personalised attention. The centre also provides therapeutic interventions, such as physiotherapy, cognitive stimulation, music engagement, and emotional counselling to elderly patients.

FY 2025-26 IMPACT

50

Elderly Beneficiaries Supported at the ASHA Dementia Centre

Naturopathy & Alternative Medicine

DLF Foundation continued promoting accessible, preventive healthcare through its Naturopathy, Magnet Therapy and Acupressure Therapy initiatives to enhance well-being for underserved communities. The project addressed health issues while encouraging holistic lifestyle practices for long-term benefits. Naturopathy empowered individuals with self-healing techniques involving balanced nutrition, regular exercise, and stress management to support physical and mental health. Acupressure Therapy offered a non-invasive, drug-free treatment by stimulating pressure points to relieve pain, stress, and other health issues.

FY 2025-26 IMPACT

7,548

Beneficiaries Received Treatments and Consultations

Medical Assistance to People in Need

Many individuals from economically disadvantaged backgrounds are supported annually through the DLF QEC Medical Charitable Trust, which facilitates access to essential medical care. The project aims to bridge critical affordability gaps by providing financial assistance to needy patients requiring urgent treatment, ensuring access to quality healthcare services.

Patients received medical support, including treatment for chronic liver infection, kidney transplantation, paralysis, brain tumour, and breast cancer at leading hospitals pan India.

PEDESTRIAN SAFETY

Saving Lives Through Safer Roads

In collaboration with the Gurugram Metropolitan Development Authority and the National Highways Authority of India (NHAI), the Foundation is developing pedestrian public Foot-over Bridges (FOBs), walkways and subways at high-traffic junctions. These initiatives prioritise the safety and mobility of senior citizens, children, women, and persons with disabilities.

ENABLING SAFER EVERYDAY MOBILITY

Safer Pedestrian Mobility

Creating dedicated pedestrian crossings to reduce risks for pedestrians on high-traffic roads.

Accident Prevention

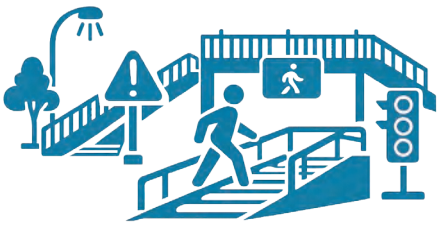

Supporting safer movement and helping minimise road-related injuries and accidents through planned public safety interventions.

Inclusive for Elderly, PWDs & Children

Equipped with elevators, escalators, ramps, stairways, CCTV cameras, and adequate lighting, the facilities provide universal access and a safe crossing on the high-traffic roads.

Seamless Connectivity to Public Transport

FOB and Subway strengthen connectivity between key community locations and enhance overall accessibility.

24,18,262

Public Footfalls
Recorded on Public Foot-over Bridge and Pedestrian Subway

Pedestrian Subway

The public pedestrian subway at Shankar Chowk on NH-48 has been developed to enhance safe public movement between Udyog Vihar and Moulsari Avenue Metro Station, a busy corridor in Gurugram. The subway provides a secure alternative to highway-crossing, improving pedestrian mobility and reducing accident risk. Equipped with universal accessibility features including elevators, escalators, ramps, stairways, and adequate lighting, it ensures safe accessibility for seniors and persons with disabilities.

> *"Every morning and evening, I had to earlier cross the National Highway on foot to access public transport from my workplace in Udyog Vihar. It was a huge safety risk with high-speed traffic on the highway. The pedestrian subway has now ensured easy and safe access to the Metro Station for thousands of commuters."*

ANIMAL WELFARE

Commitment to Veterinary Care and Animal Welfare

CGS Charitable Trust's Animal Welfare initiatives focus on providing quality healthcare, treatment, rehabilitation, emergency support, and compassionate care to improve the lives of distressed animals.

A COMPASSIONATE APPROACH

Emergency Animal Ambulance

Rapid response and transportation services ensuring timely medical attention and safe transfer of animals in need.

Pasha Wing For Stray Animals

Access to quality veterinary consultation, diagnosis, treatment, and surgical care through dedicated animal healthcare facilities.

Medical, Rescue & Rehabilitation Support

Delivering integrated healthcare, rescue, and rehabilitation services for animals through veterinary care, physiotherapy and hydrotherapy interventions.

Redevelopment of the Pasha Wing at CGS

A new Pasha wing for stray animals is being devloped at the CGS Facility in Gurugram, which will be a dedicated space for treatment of injured strays. The project plans to develop specialised treatment rooms, an operation theatre and OPD areas, to deliver comprehensive care for stray cats and dogs. The aim is to improve access to quality veterinary services and enhance outcomes for vulnerable animals.

Additionally, medical equipment support was provided to enable timely diagnostics and ensure quality treatment for small animals in distress.

Shelter and Medical Support to Stray Animals

Support was provided to All Creatures Great and Small (ACGS), an animal welfare organisation, for providing shelter, medical care, and nutrition to animals in distress at the ACGS sanctuary in Faridabad, Haryana. The initiative focused on rescuing, rehabilitating, and treating injured, abandoned, and vulnerable animals while ensuring their long-term shelter and care.

The sanctuary provided veterinary care to both small and large animals, including dogs, cats, cows, horses, buffaloes, and mules, among others. The animals received comprehensive medical support, including IPD and OPD services, surgeries, diagnostic procedures such as X-rays and ultrasounds, and post-treatment care. They were also provided proper nutrition, attentive care, and a safe environment to support their recovery and rehabilitation.

> *"None of this would have been possible without CGS and DLF stepping in; they helped us elevate this to the next level. I believe their vision of assisting us in providing the best animal care possible truly made a difference."*
>

SOCIAL SUSTAINABILITY

Commitment to Social Welfare & Volunteering

DLF Foundation focuses on social welfare initiatives to empower underprivileged communities. Through targeted projects, including community volunteering, access to government welfare schemes, and disaster relief, we aim to create lasting change for those in need.

COMMITMENT TO SOCIAL WELFARE

DLF Engage Volunteering

Volunteering initiatives that encourage active participation in community development, social welfare, education, health, and environmental action.

Community Development Initiatives

Focused interventions that support local communities through need-based welfare activities, improved access to essential services, and inclusive development support.

Disaster Relief

Timely support to vulnerable communities during emergencies through relief assistance, essential supplies, and coordinated response efforts.

DLF Engage Volunteering Programme

DLF Engage, the volunteering Programme of DLF Foundation, promotes active citizenship and community participation by connecting committed individuals with opportunities to contribute their time, skills, and expertise for meaningful social impact. The Pogramme continues to offer diverse volunteering opportunities, including plantation drives, mentorship to school students, and improving learning spaces for the poor.

During the year, volunteers engaged in these initiatives, contributed to awareness campaigns on key issues, facilitated experiential learning sessions, and conducted hands-on STEM activities for students. The School Mentorship Project further strengthened the academic progress and personal development of underserved children through consistent volunteer engagement. Under the school mentorship, volunteers gave their time and skills for academic handholding, career guidance, storytelling sessions, and activities that foster imagination, expression, and critical thinking at different NGO-run schools in Gurugram.

> *"Supporting the students of MUSKAAN, who are intellectually challenged, during the Walkathon on World Autism Day was an incredibly fulfilling and heartwarming experience."*

Suvidha Kendra

DLF Foundation, in partnership with Haqdarshak, continued implementing the Suvidha Kendra Project to improve access to government welfare schemes for underserved communities in Gurugram. The initiative tackled barriers such as limited awareness, documentation challenges, and restricted digital access that often prevent vulnerable populations from obtaining essential services and benefits.

The Suvidha Kendra served as a support hub, assisting beneficiaries from low-income families in identifying eligible schemes, completing applications, and registration under the schemes. Trained facilitators and on-ground outreach initiatives ensured personalised guidance and support to beneficiaries.

Multiple camps were organised across Gurugram to offer direct support to underprivileged individuals. The initiative facilitated access to government welfare schemes such as Ayushman Bharat Health Scheme, Pradhan Mantri Suraksha Bima Yojana, social security, and also helped obtain essential identification documents for enrolment. The Suvidha Kendra Project supported 2,729 beneficiaries register for government welfare schemes.

> *"Through Suvidha Kendra, I learnt about various government welfare schemes I was previously unaware of. I registered for the Ayushman Bharat scheme."*
>

Disaster Relief and Rehabilitation Support

DLF Foundation extended support during the floods in Uttarakhand and Punjab in 2025, which caused extensive loss of life, property, and livelihoods. Blocked roads and disrupted communication severely hampered relief efforts in the affected areas, leaving many families homeless and vulnerable. The Foundation organised a relief drive, distributing bedding, cooking utensils, essential rations, and animal fodder. This intervention provided vital support and reassurance to affected families during a time of acute distress.

SPORTS PROMOTION

Nurturing Talent, Inspiring Excellence

DLF Foundation's Sports Promotion initiatives focus on nurturing talent, improving access to quality training, and encouraging sporting excellence through sustained support across disciplines such as golf, taekwondo, and squash.

PROMOTING SPORTS. SHAPING CHAMPIONS.

Nurturing Sporting Talent

Supporting young and emerging athletes with opportunities to train, compete, and excel in sports.

Sporting Culture

Fostering a lasting culture of sport and well-being among youth through structured participation and lifestyle mentorship.

Nutrition Guidance

Providing expert nutrition support and personalised guidance to optimise sporting performance.

Para Equipment Support

Supporting specialised equipment to para-athletes in collaboration with the Paralympic Committee of India (PCI).

Golf Excellence Programme

The Golf Excellence Programme nurtures young, talented golfers and prepares them for national and international competitions. It continues to provide structured training in on-course play, course management, biomechanics, fitness, nutrition, and equipment, as well as access to practice facilities and tournament support.

In FY 2025–26, 13 young golfers, including some from low-income backgrounds, received support to access quality training and participation in tournaments. During the year, golfers trained through this Programme participated and received recognition at numerous national and international tournaments, including the *WGAI–Hero Order of Merit, Singapore Junior Championship, US Kids Thailand Championship, Singapore Ladies Masters, Optimax Jaga International Series, Trinity Golf Premier League, Asian Development Tour, Nepal Amateur Championship, Taiwan Junior Open, Tamil Nadu Junior Championship, among others.*

> *"I'm proud to be backed by the DLF Foundation, whose belief in me goes beyond sponsorship; it's a true partnership built on excellence, trust, and long-term vision. With their support, I'm not just preparing for the next tournament, I'm building something bigger."*
>

Sports Excellence Programme

The DLF Sports Excellence Programme nurtures promising young talented players by providing structured financial assistance for expert guidance and access to quality training resources. Designed to help talented boys and girls pursue nationally recognised sports as a professional career, the Programme is creating pathways for young champions to chase their dreams with confidence and support. Promising athletes in Squash, Lawn Tennis, Taekwondo and more have received support to pursue advanced training and compete on national and international platforms.

> *"I am grateful to the DLF Foundation for being by my side. Their support has opened doors for me to travel, train more effectively, and compete with some of the best players in the world. I feel fortunate and proud to represent India."*
